

Fog 2

Vertical strips of linen and wool are felted together to create an austere banner — wordless, imageless, and nearly edgeless, Fog 2 is a visual refuge from the static of modern life. Hints of peach, icy blue, and ecru appear here and there through the fog to lift us toward contentment.

ABOUT WALLWORKS

Wallworks, in their most essential guise, are large-scale, one-of-a-kind wall hangings felted from reclaimed EILEEN FISHER clothing. The variety of materials, colors, and hand-arranged compositions renders each piece wholly unique. The size and textural quality of Wallworks make for a stunning addition to private and public spaces alike, providing visual impact and a modicum of acoustic dampening. Wallworks were first displayed in the Waste No More exhibit at Salone Internazionale del Mobile di Milano, the prestigious furniture and design trade fair.
