

Foliage 5

The delicacy of silk takes on new life in Foliage 5, where it has been shaped and layered — and layered again — like autumn leaves on a sidewalk. From the satiny canvas, various patterns and forms emerge slowly yet confidently, shrouded in the mystery of reinvention.

ABOUT WALLWORKS

Wallworks, in their most essential guise, are large-scale, one-of-a-kind wall hangings felted from reclaimed EILEEN FISHER clothing. The variety of materials, colors, and hand-arranged compositions renders each piece wholly unique. The size and textural quality of Wallworks make for a stunning addition to private and public spaces alike, providing visual impact and a modicum of acoustic dampening. Wallworks were first displayed in the Waste No More exhibit at Salone Internazionale del Mobile di Milano, the prestigious furniture and design trade fair.
