## Matrix

Matrix is one of the largest wallworks, measuring roughly 9' x 5' and resembling a painterly grid on canvas. Made of felted linen and wool, its monochrome expanse is a study in white, from snow to ivory to old lace. Every intersection and open space is a triumph of the artist's hand. Matrix can be hung in the direction that suits your space and eye.

### ABOUT WALLWORKS

Wallworks, in their most essential guise, are large-scale, one-of-a-kind wall hangings felted from reclaimed EILEEN FISHER clothing. The variety of materials, colors, and hand-arranged compositions renders each piece wholly unique. The size and textural quality of Wallworks make for a stunning addition to private and public spaces alike, providing visual impact and a modicum of acoustic dampening. Wallworks were first displayed in the Waste No More exhibit at Salone Internazionale del Mobile di Milano, the prestigious furniture and design trade fair.
