

Red Denim

Strong, vibrant strips of stalwart denim are closely assembled and cross hatched to create a composition that is anything but staid. The bustling shapes lean forward urgently, like morning commuters, their overlapping forms creating new hues of red and pink. Felted into a seamless landscape from 16 pairs of jeans, it will awaken the senses in any space.

SUSTAINABILITY

Made from:
16 denim pants

ABOUT WALLWORKS

Wallworks, in their most essential guise, are large-scale, one-of-a-kind wall hangings felted from reclaimed EILEEN FISHER clothing. The variety of materials, colors, and hand-arranged compositions renders each piece wholly unique. The size and textural quality of Wallworks make for a stunning addition to private and public spaces alike, providing visual impact and a modicum of acoustic dampening. Wallworks were first displayed in the Waste No More exhibit at Salone Internazionale del Mobile di Milano, the prestigious furniture and design trade fair.
