

Red Lines

Destined to catch the eye and to keep it, this six-foot long wallwork is resplendent with fine lines and jaunty dots of wool set against a collage of color. Made from 18 wool sweaters and three pairs of silk pants, it has been arranged and felted into haphazardly patterned perfection.

3 silk pants

ABOUT WALLWORKS

Wallworks, in their most essential guise, are large-scale, one-of-a-kind wall hangings felted from reclaimed EILEEN FISHER clothing. The variety of materials, colors, and hand-arranged compositions renders each piece wholly unique. The size and textural quality of Wallworks make for a stunning addition to private and public spaces alike, providing visual impact and a modicum of acoustic dampening. Wallworks were first displayed in the Waste No More exhibit at Salone Internazionale del Mobile di Milano, the prestigious furniture and design trade fair.
