

Rust and Fog

Collage at its finest, Rust and Fog represents the merging of manual craft with industrial process. Its soft gradients and pixelated layers have a quality unlike that of paint or paper and appear almost digital from afar. Upon closer inspection the wallwork is a complex assemblage of woven fabrics, felted into a new scape of expression.

DETAILS

Rust and Fog
Silk, wool, linen
44 x 75 inches
Liz Sandler
2022

\$3,780

SUSTAINABILITY

Made from:
10 wool sweaters
5 silk pants
10 silk tops
6 linen tops

ABOUT WALLWORKS

Wallworks, in their most essential guise, are large-scale, one-of-a-kind wall hangings felted from reclaimed EILEEN FISHER clothing. The variety of materials, colors, and hand-arranged compositions renders each piece wholly unique. The size and textural quality of Wallworks make for a stunning addition to private and public spaces alike, providing visual impact and a modicum of acoustic dampening. Wallworks were first displayed in the Waste No More exhibit at Salone Internazionale del Mobile di Milano, the prestigious furniture and design trade fair.
